## **Recording Assessment & Student Tracking**

---

**PiPeLine Productions Academies** will use NCFE templates when assessing and recording assessment of candidates work. Each candidate will have a separate tracking log for the QCF Qualifications and a combined one for the V Cert Qualifications. These will be completed throughout the course by students. Assessors will use the assessment sheets to feedback to the students on progress of any units completed and assessed. These will be used in review meetings with the candidates also and to flag up any potential difficulties.

All of the Tracking and Assessment forms have been downloaded from the NCFE Website.

In the future we may use these as templates to create our own using our house style.
